## **NEW PRODUCT DATA AND APPLICATION SHEET**

**APPLICATIONS**      Wherever DIN rail mount accessories are required and heavy duty, IP66, industrial protection is essential.

**COMMENTS**            This item can now fit standard Merlin Gerin four pole RCCB's, where the former 56CB40 could not, and the only alternative used to be the Matrix MDE4NLB. Given the removable  $\frac{1}{2}$  width pole strips this item supersedes the 56CB10, 56CB20, 56CB25, 56CB30, 56CB40, and MDE4NLB.
