9416175227264

### DESCRIPTION

Modena 800 Series™ three gang vertical 16A SP 2 way switch with grid and clip on surround.

**BOX QUANTITY** 10

**OUTER QUANTITY** N/A

### FEATURES

Switch rating; 250V a.c, 50Hz, 16AX  
(16A resistive, 16A fluorescent to AS/NZS 3133)  
Front loading mechanism for superior impact resistance.  
1 way/2 way switching with loop terminal.  
Terminal size has been maximised for ease of use.  
Terminals and mounting screw heads are Powerhead™ combination (#1 Square head / #2 Phillips) for greater drivability. Powerhead™ is standardised across the entire Modena 800 Series™ product range reducing the need for multiple drivers.  
Fully shrouded and clearly marked terminals for faster installation.  
Stops on all terminal screws to prevent accidental disengagement.  
Optional, replaceable indicator that can be wired for “permanently on” or to indicate “on” / “off” status  
Additional mounting points provided – twin mounting points at the top and bottom of the grid.

## **NEW PRODUCT DATA AND APPLICATION SHEET**

### **APPLICATIONS**

Premier range electrical accessories for new or retro-fit vertical switch installations.

Modena 800 Series™ switch modules are available in black and white, with a range of colour options for the clip-on surrounds.

### **COMMENTS**

Screw caps **MUST** be used whenever a chrome clip-on surround is fitted.
